

Snowman Directions

By LDW

1. Click shapes and click the circle.
2. Then make the outside of the circles dark turquoise and fill it with light turquoise.
3. Now make big black eyes. Then put six red buttons down the stomach. Draw a carrot nose below the eyes to the right, and a black mouth with brown twig arms.
4. Now put a lime green hat on. Make it long and oval at the bottom and flat at the top. Then your snowman is done.
